

INFINITE CIRCLE OF LIGHT

I AM an Infinite Circle of Light.
I AM Ascended and Free.
I AM inclusive of all life,
living free in the Light.
I AM THAT I AM

From within this Infinite Circle of Light:
The Gathering of Ascended Humanity,
In union with the Royal Kingdoms of Angels and Elementals,

Through the cohesive Power of Divine Love
uniting all Life in its Ascended State,

Now emerges into Humanity as the Theme and
Thoughtform of this Sacred Month and Cycle of the Zodiac:

ALPHA AND OMEGA

Preparation for the New Solar Year Theme and Thoughtform

Alpha and Omega now stands in for the Three-fold Flame
at the Center of 2017 Solar Year Thoughtform.

Our Seven Chakras open to the Divine Plan, truly
representing the Seven Suns in this Solar System
under the Central Sun of Alpha and Omega.

ASCENSION CONCEPTS

Last month we further opened our Creative Faculties to Divine co-creation. This is part of the Grand design for Humanity's Ascension ...each 'level of formed life' Ascending to its next level. The Gathering of Ascended Humanity initiates the process, individually opening our embodied Solar Christ Self into daily life. As we do, we *represent the entire Solar System* ...in preparation for the New Solar Year revealing itself. In the Grand Design of the Great Cosmic Inbreath, all life collectively opens itself to become the next Higher Aspect of Beloved Alpha and Omega ...one step closer to the Central Source.

During this Zodiacal cycle, we have the assistance of Father / Mother God at the level of the Central Sun, Beloved Alpha and Omega. Throughout their Galaxy of Suns and planets and Divine Root Races, including the Angelic and Elemental Kingdoms, *all of creation reflects their Celestial Nature*. In the case of Humanity, the Seven Chakras become the Seven Suns, with our Three-fold Flame representing the Central Sun. The Mystic Ring of Violet Fire embodies the Infinite Circle of Light ...the Body of the White Fire Being ...the true 'image and likeness' of Father / Mother God, where now the White Fire Being has projected its Celestial Presence. The Causal Body of Alpha and Omega is represented by the many Multi-Dimensional Circles and Realms of Sacred Fire in our Ascended and Free Realms of Light in the Solar Year Thoughtform. All of this is now reaching its Divine harvest!

As in the Celestial Galaxy, the Seven Suns orbit the Central Sun ...and thus our chakras orbit our Three-fold Flame ...not so much in time and space but as Multi-Dimensional *Spheres of Influence* revolving around their Central Source. In their Quantum State Potential, our Ascended and Free Chakras *reflect the 12 Houses of*

the Sun ...just as the Seven Suns of Alpha and Omega reflect the 12 Suns of the Great Central Sun Eloha and Elohae. How the 12 reflect through the seven came during the turning of Great Cosmic Cycles, where only seven of the 12 planets of Alpha and Omega chose to become Suns, *when Alpha and Omega took on the Initiation as a Central Sun*. These seven thus chose to develop a Solar System of planets and Root Races. The other five chose to remain in the Causal Body of Alpha and Omega ...residing in Nirvana.

In the Divine Plan, the chakras of Humanity reflect the *seven Suns of Alpha and Omega* who chose co-creation ...as well as reflecting the *seven Planets of Beloved Helios and Vesta*, our local Solar System Sun. Our seven chakras also equate the seven Spheres of Light in the Causal Body ...again from the Causal Body of Alpha and Omega in the Central Sun, through to our own Causal Body around our Mighty I AM Presence. Thus, our seven Chakras (or Realms) are also meant to be Humanity's *personal Realms of Precipitation, Causation and Co-creation* on Earth!

With this understanding, and our *desire of restoring Original Intention*, let us explore the nature of the *Solar Year* (as there is also the *calendar year*). The Solar Year begins with the Solar House of Virgo (August / September), known as *the Virgin* (one who is *pure of nature and intent*). It is no coincidence that our Beloved Mother Mary is also known as the *Holy Virgin*, when giving birth to our Beloved Jesus and the Christian Dispensation. This title refers to her ability of holding the Purity of the Immaculate Concept. After Virgo, for the ensuing three monthly Zodiac cycles leading up to the *calendar New Year* (October, November, December), there is an *inner preparation* for the birth (or outer manifestation) of the 'conception' that took place during Virgo. These may then be said to represent the 'inner gestation' which then culminates in a birth ... when the new creation is then 'seen' ...or, enters daily life.

During these months of 'inner incubation', the Spiritual Hierarchy (now with the conscious attunement of the Gathering of Ascended Humanity) prepare an accelerating Energy, Vibration and Consciousness for the coming 'New Year' Thoughtform ...which we then call the *Solar Year Thoughtform* (even though it coincides with the new *calendar year*). *For It has emerged from unseen,*

formless Perfection Patterns; 'electron as wave' co-creation ... to seen, formed Perfection Patterns; 'electrons as particles' co-creation. This moment of birth is what we now await ...but as would any good midwife, we prepare for the birth. And because we have made ready a spiritual infrastructure, we affirm: ***I AM the full preparation and expectation of the new Solar Year Thoughtform!*** And SO IT IS!

There is a great Forcefield building in Cosmic Momentum that will express with the January Cycle of Light Service! It comes as no surprise that the highest levels of the Spiritual Hierarchy for this Solar System would take a personal interest in our Cause! For it is the principal focus of all who await the Great Cosmic Inbreath, on all levels of the Solar System and Galaxy. And our Cause is certainly the focus of Beloved Alpha and Omega, as well as their Seven Suns and each of their Seven Planets (of which Earth is one of these 49 planets) ...as well as all the Seven Root Races of all the Ascended Planets of the Seven Suns. *Everything else awaits the preparation and acceleration of our sweet Earth ...to be sufficiently 'primed' for this 'turning of the Great Cosmic Cycle'.* And this Cause is the central purpose of *our present embodiment*, in service to Father / Mother God.

We have been taught to *discover ...and then become ...our True Identity.* We practice its Divine Peace ...even in the face of the persistent karmic illusion that afflicts our outer senses. But in that Divine Peace of True Identity is the Keynote of our perfect Service to Life. We are Keepers of the Flame ...and thus, we have *chosen* the Path as Builders of Divine Self, Builders of Divine Consciousness and Builders of an Eternal Life in the Light. We have volunteered to build the Bridge to Spiritual Freedom and assist *every level of life* to cross over the abyss into the Light! We hold 'all life existing in form' *within us ...the Crystalline Shimmering Diamond or Pagoda of Seven White Ascension Doves, incubating within my Light Body.* ***I AM holding a Divine Reverence for all Life*** ...which sustains my Light Service! And SO IT IS!

But we are also 'of great Joy', for we are aware of the 'much bigger picture' of what the present-times mean ...as well as what is to come. We deflect personal suffering through discovering the Divine

Enlightenment that every other Ascended Master trainee has found as they approached their personal Ascension ...the ***Divine Peace of our True Identity*** ...an Eternal Flame and its Infinite Radiant Light. This is our Ascension, but we have chosen to live Ascended and Free *on Earth* (rather than to leave it) ...in order to reveal this Ascended and Free State (of New Earth in her Ascended and Free Orbit of Divine Love) ...to all Humanity! We are like the expectant mother whose body is pushed to uncomfortable limits by gestation ...but who happily awaits the reward of a new Child ...our new Star of Spiritual Freedom!

There is emerging from the unseen a *Mighty Forcefield* of Sound and Color; of Quantum State thinking and feeling; of the Sacred Fragrance of Ascended and Free Earth; and a Crystal Vision of the Star of Spiritual Freedom. In this present Divine Ceremony of *anticipating spiritual birth*, there is a stillness, a Great Silence in this last month. It is akin to the original awaiting of the birth of the Cosmic Christ through Beloved Jesus ...a stillness, a centering, a preparation for that which is to come.

And like the Three Kings, we bring our gifts to the birth of the New Dispensation. Our gifts to the Christ Child ...the Spiritual Freedom of every Solar Christ Self within Humanity ...are in the Energy, Vibration and Consciousness of our True Identity ...our Eternal Flame and its Infinite Radiant Light. We have been and remain Builders of this Divine Forcefield, even before it 'becomes seen'. The new Solar Year Thoughtform is a co-creation ...something we *all participate in ...in Oneness Consciousness* with the Spiritual Hierarchy and the Great Light Brotherhood. We have each added our thread into the great Multi-Dimensional tapestry of design and color. We each add the tone of our Divine Instrument into the great Symphony of Keynotes that announces the birth. We do so from our Ascended and Free Temple ...in the Ascended and Free Realms of Light around New Earth in her Ascended and Free Orbit.

As we approach the *full harvest* of this calendar year, every aspect of the 2017 Thoughtform ***reaches its Divine Potential.*** Thus, the Sword of Blue Flame becomes God's Will operating on all levels of formed life. The Golden Aura of the Golden Robe becomes the necessary Enlightenment of every aspect of life, in order to achieve its

graduation into its next level of Divine Potential. The Rose-petaled Pulsating Pink Sun becomes Holy Spirit in all its manifestation, establishing the Cohesive Power of Divine Love sustaining all life in her Ascended State.

The Pagoda of Seven White Ascension Doves *initiates and accelerates Humanity and the Elemental Kingdom* in this Ascension Process. The Mystic Ring of Violet Fire creates the necessary Mercy, Compassion and Forgiveness and Transmutation to ensure that karmic illusion can no longer interfere with this First Cause. And finally, the Realms of Precipitation, Causation and Co-creation become the Causal Body of New Earth in her Ascended and Free Orbit of Spiritual Freedom! *This* is the Divine Infrastructure we have built.

And thus we, the Gathering of Ascended Humanity, *become our Divine Potential* for this (2017) Sacred Year of Divine Light Service. Only then can we turn our full attention to the new Solar Year, *emerging from unseen Realms*, into its form and function amongst us. The Cosmic Christ reveals herself along the Feminine Ray of *full inclusion* of all life living Ascended and Free! Let us watch for this Revelation in every aspect of life ...and rejoice in its birth!

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED MOTHER MARY...

On holding the Immaculate Concept for all life

Beloved of my Flame ...the *Flame of Consecration to the Immaculate Concept for all life* ...I love and adore you. I cherish you each as if I had personally given birth to you in this present embodiment. For in a way I did, in that when you embodied your last stop in training (in preparation for this embodied Light Service in form), was in my Temple of Birth. Here I sealed you in the *Flame of Constancy for the Immaculate Concept* ...of all life living Free in the Light! Therefore, please attune to my Aura and Flame embracing you ...as would a mother hold and nurture her child.

For as I promised Beloved Jesus throughout his embodiment: ***I AM with you always and forever!***

In the history of Spiritual Teaching, there has been the notion of *experiencing every level of formed life*, so as to be able to feel one with it and thus, love it free. Buddhists may refer to this as the possibility of incarnating as any life form, of any Kingdom. My intent is not to debate theology, but rather to open the possibility that *right here and now, you do live as every form of life* within physical creation ...***as all formed life is within you.*** This Forcefield is coming to its culmination ...as we reach the climax of the Thoughtform of this present Solar Year 2017 and prepare for the next. Your developed Oneness Consciousness has allowed for this reality, which furthers the Cause of Spiritual Freedom more than you may yet realize!

Contemplate the following affirmation:

I AM every level of formed life, each
level of the Pagoda of Seven Ascension Doves.
I AM the Divine Mother holding the conception of each
platform of expressed life, in the Bosom of my Being.
I was trained for this in the Temple of Divine Birth,
and ***so it is now*** in my embodied Light Service!

As I AM raised up in Energy, Vibration and Consciousness,
so is all life *on every level of physical expression*, raised
up to its Divine Potential ...in full preparation
for the Great Cosmic Inbreath!

All of this Miracle of Spiritual Acceleration occurs within me,
as *I AM the Divine Mother Principle* in action on Earth.
I stand with Mother Mary in her *Flame of Constancy
to the Immaculate Concept* ...of all life
living free in the Light!
And SO IT IS!

Hence, we realize that we do not need to embody as all the life forms ...as I *already embody them all*, holding them in my Spiritual Domain of Consciousness ...my Flame of Creation ...right here and now! The Crystalline Shimmering Diamond is *all life manifesting*

Forcefields ...as well as *holding* their Cosmic Momentum ...when possibly the attention and focus of the Light Servers may wane from time to time. When Light Servers *rhythmically invoke* and *give their loving adoration* to the Angelic Attendants of their *personal* Forcefield ...as well as the *global* Solar Year Thoughtform, then these Angels will *hold steady the Cosmic Momentum* built, while the Light Server is 'busy with their daily life'! This is part of the Divine Ceremony you have been trained in through the Temples of the Seventh Ray and all the Ascended Masters along that Cosmic Service.

Here Rhythm and Constancy are the Keynote. And in this spirit, I ask you to constantly include myself, the Angelic Hosts and all co-servers along the Ray of the Immaculate Concept in your daily invocations, prayers, visualizations and meditations. *We desire to be included in your daily life* ...for you are the anchorage of everything we desire for our sweet Earth. We are as close as your breath and your thoughts ...and we desire to constantly be part of the fabric of your daily Light Service.

Always with you in your eternal Moment of Now ...
And SO IT IS, BELOVED I AM!

***E*NERGY, VIBRATION AND CONSCIOUSNESS OF FIRST RAY ELOHIM, BELOVED HERCULES...**

I AM of the First Ray of Divine Intention and the natural self-restraint or self-regulation to *continually align with First Cause*. It is referred to as *God's Will* and the action of sublimating personal will to the greater good ...a spiritual discipline. Yet it is also *scientific*, as when the architect follows the blueprint ...else the building will not be constructed to the correct specifications ...and thus the object of creation does not manifest as originally intended. Such co-creation with scientific rigor and exactness is the Service of all the Elohim, but especially the First Ray.

within me ...and simultaneously, *I AM within all of life existing in form*. I AM the bird, the insect, the plane, the molecule and even the sub-atomic particle. I AM the complex plant and animal life and I AM every facet of human consciousness ...from mass thoughts, feelings, words and deeds to the most elevated Spiritual Consciousness within Humanity. And I observe and love this process ...and have *Reverence for all life*, all from my Ascended and Free State, my Spiritual Freedom! And thus, the Gathering of Ascended Humanity holds the Immaculate Concept for all life ... just as we practiced in my Temple before this embodiment. And I AM so very grateful that you have *held constant to the Cause!*

Together, standing in the Light, let us affirm: I now blaze my Three-fold Flame of Love, Wisdom and Power through every aspect of formed life that I AM ...as seen in the Solar Year Thoughtform. To begin, I enfold all life in the Circle and Sword of Blue Flame. I feel the First Ray empowering all life with the Divine Intent to return to Divine Potential. Then I enfold the Crystalline Shimmering Diamond in the Golden Aura of the Golden Robe. Here I immerse all life forms with the God Illumination to understand the Ascension Process back to Divine Potential. And finally, I bless all life with the Rose-petaled Pulsating Pink Sun ...*inclusive of all life living free in the Light!* Then I affirm: ***by the Power of the Three-fold Flame vested in me, I bless all life existing in form back to its Divine Potential, never again having to serve human creation!***

Then we complete the Ceremony with the Seventh Ray's Divine outpouring, from the Mystic Ring of Violet Fire. Here the Divine Synergy of the Feminine Ray and Seventh Ray melds in perfect union, establishing a Oneness Consciousness that permeates all levels of formed life. And finally, I AM immersing all life in the Ascended and Free Realms of Precipitation, Causation and Co-creation! Standing in the fullness of the Solar Year Forcefield of 2017, we again reveal the Law: *As I AM raised up* (in Energy, Vibration and Consciousness), *so is all life raised up with me!* And we feel the Theme and Thoughtform of this Solar Year in full blossom ...*giving its full harvest to the world* ...soon to make way for the new Solar Year Thoughtform to manifest itself in the coming cycle.

You have recently given more attention to the Angelic Kingdom and I AM grateful for this. For they assist in the *building* of Divine

And to my great Joy, here you are as Builders of Divine Self, Builders of Divine Consciousness and Builders of an Eternal Life in the Light. Your *discipline of Constancy to First Cause* has allowed you to attain and hold this spiritual rank. And I AM here *to serve you* ...to further your service in this endeavor. I serve in many capacities ...as Elohim in the co-creation of the Divine Plan of Alpha and Omega ...and as a Sun co-creating its own Solar System of Ascended Planets (already prepared for the Great Cosmic Inbreath) ...allowing me to speak from both perspectives. So, let us together focus on the discipline of ‘*always aligned with Original Cause*’! Welcome to the First Ray!

Let us review the *basic foundation of Cosmic Law: What you think and feel you bring into form*. When our thoughts, feelings, words and deeds are *aligned with the motive of Original Intention* or First Cause, then *all subsequent co-creation is included in the Divine Plan*. Think on that! Our God Parents are primarily focused on the *process* of Divine Co-creation. It is in this way that Father / Mother God allows their Root Race Children of Light to decide on the *content* of the Divine Plan ...thus unfolding infinite arrays of Perfection Patterns in this process ...as long as they follow the *process* of Divine co-creation ...always aligned with Father / Mother God’s Divine Motive of *ever increasing Perfection Patterns evolving into eternity*.

On the other hand, karma is that aspect of the law of cause and effect where motive was less than, or different from, First Cause. Karma only occurs from the motive being less than Perfect Love ...when our thoughts and feelings are not in Divine Alignment with First Cause. So, let us meditate on our thoughts, feelings, words and deeds *as our power of co-creation of the world we desire* ...the Star of Spiritual Freedom with her Ascended and Free Humanity! Let us meditate on Love, Wisdom and Power ...on Mercy, Compassion and Forgiveness ...on Divine Truth and Spiritual Constancy and on Beloved Saint Germain’s Immaculate Concept of Spiritual Freedom. We thus generate Perfection Patterns of Cause and the resultant effects become our Divine Instruments as Builders of *unique* Divine Self; Builders of *unique* Divine Consciousness; and Builders of a *unique* Eternal Life in the Light! In this way, you are all Elohim in training! Therefore, let us meditate on generating a Cosmic Love for all life

...a Cosmic Peace for all life ...a Celestial Spiritual Freedom for all life. We meditate on *transmuting the motive* of any lesser action through the Sacred Violet Fire. This includes the thoughts, feelings, words and deeds associated with any persons, places, conditions and things of daily life ...personally or globally! We then allow for the Law of Reciprocity to come into action ...*As I AM raised up, so is all life raised up with me* ...which activates through our Oneness Consciousness with all life. Here the Crystalline Shimmering Diamond, the Pagoda of Seven White Ascension Doves within our Three-fold Flame (Solar Year Thoughtform), reassures us that, like the Sun and Central Sun ...*all life lives within us and we live within all life*. Thus, it becomes a simplified daily ceremony that *my Ascension is the Ascension of the world!*

This is how Beloved Alpha and Omega *practice daily life* in the Spheres, Realms and Dimensions of the Central Sun. This is the Divine Ceremony of their daily meditation and of their Creative Faculties in action through thoughts, feelings, words and deeds. Imagine it ...as if present with them in the Central Sun! Let us then also *see ourselves as Keepers of the Flame* ...*attaining and holding this spiritual rank*. We do this from within our Temples in the Ascended and Free Realms of Light around New Earth ...which are anchored into the world in the *Divine Ceremony within our personal physical sanctuaries and daily meditations*. And as we practice this spiritual ceremony of Divine Co-creation, *we become (I AM!) the Central Sun in action on Earth!*

Affirm and visualize: I AM empty of self, time and space ...and thus, I AM an Eternal Flame and its Infinite Radiant Light ...a Sun of the Sun! I AM an Illumined Sun of Love, created in the ‘image and likeness’ of Father / Mother God Helios and Vesta, Alpha and Omega and Elohae and Eloha ...*created to love life free* into their own unique co-creation ...every moment! I AM the Flame of Constancy ...as constant as the Sun, as she shines her life-giving Light to all life ...literally a physical sun *pouring its life-giving essence* to all life.

Ascended Master Teachings have always spoken of the Holy Spirit as Guardian and Director of the Elemental Kingdom. This refers to the Elemental Kingdom *giving form to life* ...as in ‘all life living in

form' (rather than in its 'wave-function' or spirit reality). Becoming a *Devotee of Sacred Fire* brings us to *becoming true Disciples of Holy Spirit ... Keepers of the Flame* that guides, guards and directs the Elemental Kingdom! Now the Gathering of Ascended Humanity does so globally, from their Oneness Consciousness with all life. The Infinite Radiant Light of our Flame affirms: *Wherever there is Light, there I AM! And, wherever I AM, there is Light!*

In the Great Silence of Eternal Flame and its Infinite Radiant Light, there are no thoughts except the one constant thought of Perfection ...no feelings except the one constant sublime feeling of Divine Love ...no memories except the one constant memory of all things in Divine Harmony and Balance ...and no deeds or action, except the one constant action of Radiating Divine Light in endless acts of Loving Kindness. This is the nature of Eternal Flame ...of Sacred Fire ...of our Immaculate Concept as a Being of Great Light. This is our Ascended Master Self!

Let us review the Plan of Creation for this Galaxy. In the eternal spiritual unfoldment of Beloved Alpha and Omega, their Seven Chakras eventually became the Seven Suns with their Seven Solar Systems, each with Seven Planets, each planet with their Seven Root Races. This is the Divine Plan, all established through the expression of free will of each Sun and all of the Planets and their Root Races. Think of it. Each Sun became the open door into a new or unique Sphere of Influence or Realm of Light, which then gave evolving Root Races a new found Spiritual Freedom.

Likewise, our Seven Suns are our Chakras and each one opens us to Spheres, Realms and Dimensions of pure God Energy, Vibration and Consciousness that accelerate our Spiritual Freedom. In this New Age, the Violet Fire Chakra begins the process, opening us to the Divine experience of Mercy, Compassion and Forgiveness as well as Transmutation, Transformation and Transfiguration. It *pours through us with the Power of a Sun*, currently represented in the Solar Year Thoughtform by the Mystic Ring of Violet Fire.

Proceeding upwards from the Violet Fire Chakra (just below the navel), the Sixth Ray solar plexus Chakra opens us to Peace Divine, including in busy daily life. Upwards again, the Heart Chakra opens

us to Infinite Realms of Love and all the experiences of Holy Spirit ...just as the Saints and Gurus have known. The Power Center at the throat opens us to the *Governing* nature of God Intelligence within Divine Love ...expressed through the *Voice of the Great I AM!* The Ajna Center (Third Eye) on the forehead opens us to the Sun of Divine Truth, Consecration and Crystal Vision, as well as the Seven-fold Flame of Precipitation.

The Thousand Petaled Lotus at the top of the head opens us to the Mind of God and the Enlightened Illumination of Divine Being. And lastly, coming full circle, the Ascension Chakra at the base of the spine accelerates, *releasing us from gravity ...freeing us from time and space restrictions* (rather than 'lifting us off the ground') ...and we Ascend in Energy, Vibration and Consciousness to New Earth and her Ascended and Free State of 'Together, standing in the Light' ...in the Land of Boundless Splendor and Infinite Light! Let us meditate on our personal Central Sun, the Three-fold Flame ... and its seven Suns (or Chakras) in a new way, discovering Higher Frequencies of Spiritual Freedom in our daily life!

Think of each of our Chakras *as portals of new or accelerated Ascended Mastery*. The Central Sun of Alpha and Omega expresses through their Seven Suns and their unique Solar Systems. In similar fashion, our Central Three-fold Flame expresses through our seven planetary Chakras and their 'Solar Systems' of organs, meridians, molecules, cells, atoms and electrons ...as well as how we generate thoughts, feelings, words and deeds. The more we meditate, visualize and love each of these seven Creative Faculties, *the wider the door opens* to these Divine Qualities of Ascended Mastery.

Each of the seven planetary Chakras represents one of the Seven Rays of the embodied Holy Christ Self. This aspect of our Being was designed to be the Great Mediator between God (the Mighty I AM Presence) and outer self, that had separated itself from God. Now the Gathering of Ascended Humanity fulfills the restoration of this Divine Plan ...where once again, the Mighty I AM Presence is the Great Divine Director of the Energy, Vibration and Consciousness expressed in daily life! And with *enough Cosmic Momentum of this Restoration* of the Divine Plan, this allows our sweet Earth to be fully included in the Great Cosmic Inbreath. The Suns, Central

Suns and the Great Central Sun all await this Cosmic Momentum ...established through embodied Light Service ...to reach its full Divine Potential. With this Victory, *all life on Earth* is then swept up into its Ascended Orbit of Divine Expression!

Our Eternal Flame contains the Seven Rays ...the Sacred Fire expressing itself as seven colors, seven scents, seven tones or Keynotes, seven tastes, seven textures, as well as seven varied experiences of personality traits. This is the Multi-dimensional nature of Sacred Fire, expressing through our seven planetary Chakras. And once our True Identity is fully focused on *becoming our Eternal Flame* ...then all these ‘transcendent portals’ open to the experiences of our *full Multi-Dimensional Spiritual Freedom*.

Universal I AM *desires to replicate itself* according to Original design and function. The macro scale (Central Sun with their Seven Suns and Solar Systems) reveals itself in the micro scale as us ...our Eternal Flame and its seven planetary Chakras of God Expression. Mixed into this desire of Father / Mother God is the desire for every individual God-Intelligence within Universal I AM to express its unique free-will. This allows for the fullest diversity of Perfection Patterns to be developed and manifested into eternity.

The spirit world is the twin of the physical world ...one the electron as ‘particle’ and the other, the electron as ‘wave-function’. It is the same electron and hence the twin realms. The spirit world was once openly revealed and evident ...the Sacred, the Divine as an *active part of daily life* on Earth. This was manifest in the first three Root Races. Then came the ‘great fall’ in Consciousness, where not only did the physical realm become corrupted with patterns of imbalance, but so did the spirit world. It was always intended that the spirit world would be a place of solace and peace from the density of form. But certain of its spheres became places of imbalance and fear ...given the psychic and astral effluvia generated by lower consciousness and the misuse of the Electronic Light of Creation pouring through the Creative Faculties.

Now we desire to transform the spirit world back to its origins of Harmony and Balance ...the Sacred Spirit, the Divine Spirit ...what we call the ***Realms of Holy Spirit!*** This is the Love Ray nature of

Beloved Venus, of Beloved Sanat Kumara and their Sun, Beloved Krishna and Sophia. These are Spheres, Realms and Dimensions of Love prepared for Humanity ...the “many rooms in my Father’s House that I have prepared for you” (Beloved Jesus). Then there will be once again *only complete safety and solace* in exploring the ‘inner realms’ ...in the ‘arms of the Angels’.

Just as I AM one with all life existing in form, so I AM in Oneness Consciousness with all life existing in spirit ...all the Orders of Angels and Elementals ...who watch over and hold the Immaculate Concept for their twin aspect of form. Humanity too has her ‘spirit vehicles’ ...the White Fire Being, Mighty I AM Presence, Cosmic Causal Body and Solar Christ Self ...who hold the Immaculate Concept for their embodied physical, etheric, mental and emotional vehicles. Our True Identity is the freedom to exist in all of these vehicles and to remember: I love and adore *all spirit life* as well as *all formed life* ...and align in Oneness Consciousness with *all of it ...all the time!*

This Unity has been the purpose of this Solar Year 2017, as we now lead into the next Solar Year. We send our gratitude to every aspect of this 2017 Thoughtform / Forcefield:

Beloved Lord Michael and the Sword of Blue Flame, I love you!
Beloved Brothers / Sisters of the Golden Robe, I love you!
Beloved Cosmic Holy Spirit and the Nature of Divine Love from
our Ascended sister planet Venus, Beloved Sanat Kumara,
all the Kumaras and their Teacher, Beloved Sun God
Krishna and Sophia ...I love you!
To the Mystic Ring of Violet Fire and the Realms of
Precipitation, Causation and Co-creation, I Love you!
I AM Divine Gratitude for a God Victorious Year!
And SO IT IS, BELOVED I AM!
